

# Center for Integrated Catalysis: Careers in Green Chemistry Seminar Series

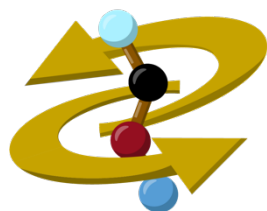

**Dr. Selma Duhović**

*Senior Associate at Propel(x)*

## “At the Nexus of Science, Business, and Finance”

**Abstract:** This webinar will tell the story of a slightly unconventional career path taken by Dr. Selma Duhović (Diaconescu Group, 2012). Dr. Duhovic will describe the choices she made, the opportunities she seized (and missed), the challenges she faced, and the competencies (acquired at UCLA) she used along the way. Her story is meant to expose students to different career trajectories on which chemistry students can thrive. Dr. Duhović received her Ph.D. in inorganic chemistry under the supervision of Prof. Paula Diaconescu, with whom she studied reactivity and electrochemical properties of organouranium complexes. She conducted her postdoctoral research with Prof. Mircea Dinca at MIT, where she studied metal organic frameworks.

**CENTER FOR  
INTEGRATED  
CATALYSIS**

**Friday, March 24<sup>th</sup>, 2023**

**1:00 p.m. (PST) | Zoom**
